

## THE GUILTY CROW

A little black bird

high in the sky

chases a crow  
twice its size.

And the guilty crow  
dodges the blow,  
pretending not to bother  
his little black brother.

And I wonder,  
how a crow can  
understand who's wrong,  
and who has the right to fight.

High in the sky  
black feathers fly.
